The Product

CogniFit is a brain health platform providing cognitive assessments and gamified training exercises designed to help individuals maintain and enhance their cognitive abilities, which are vital for overall well-being.

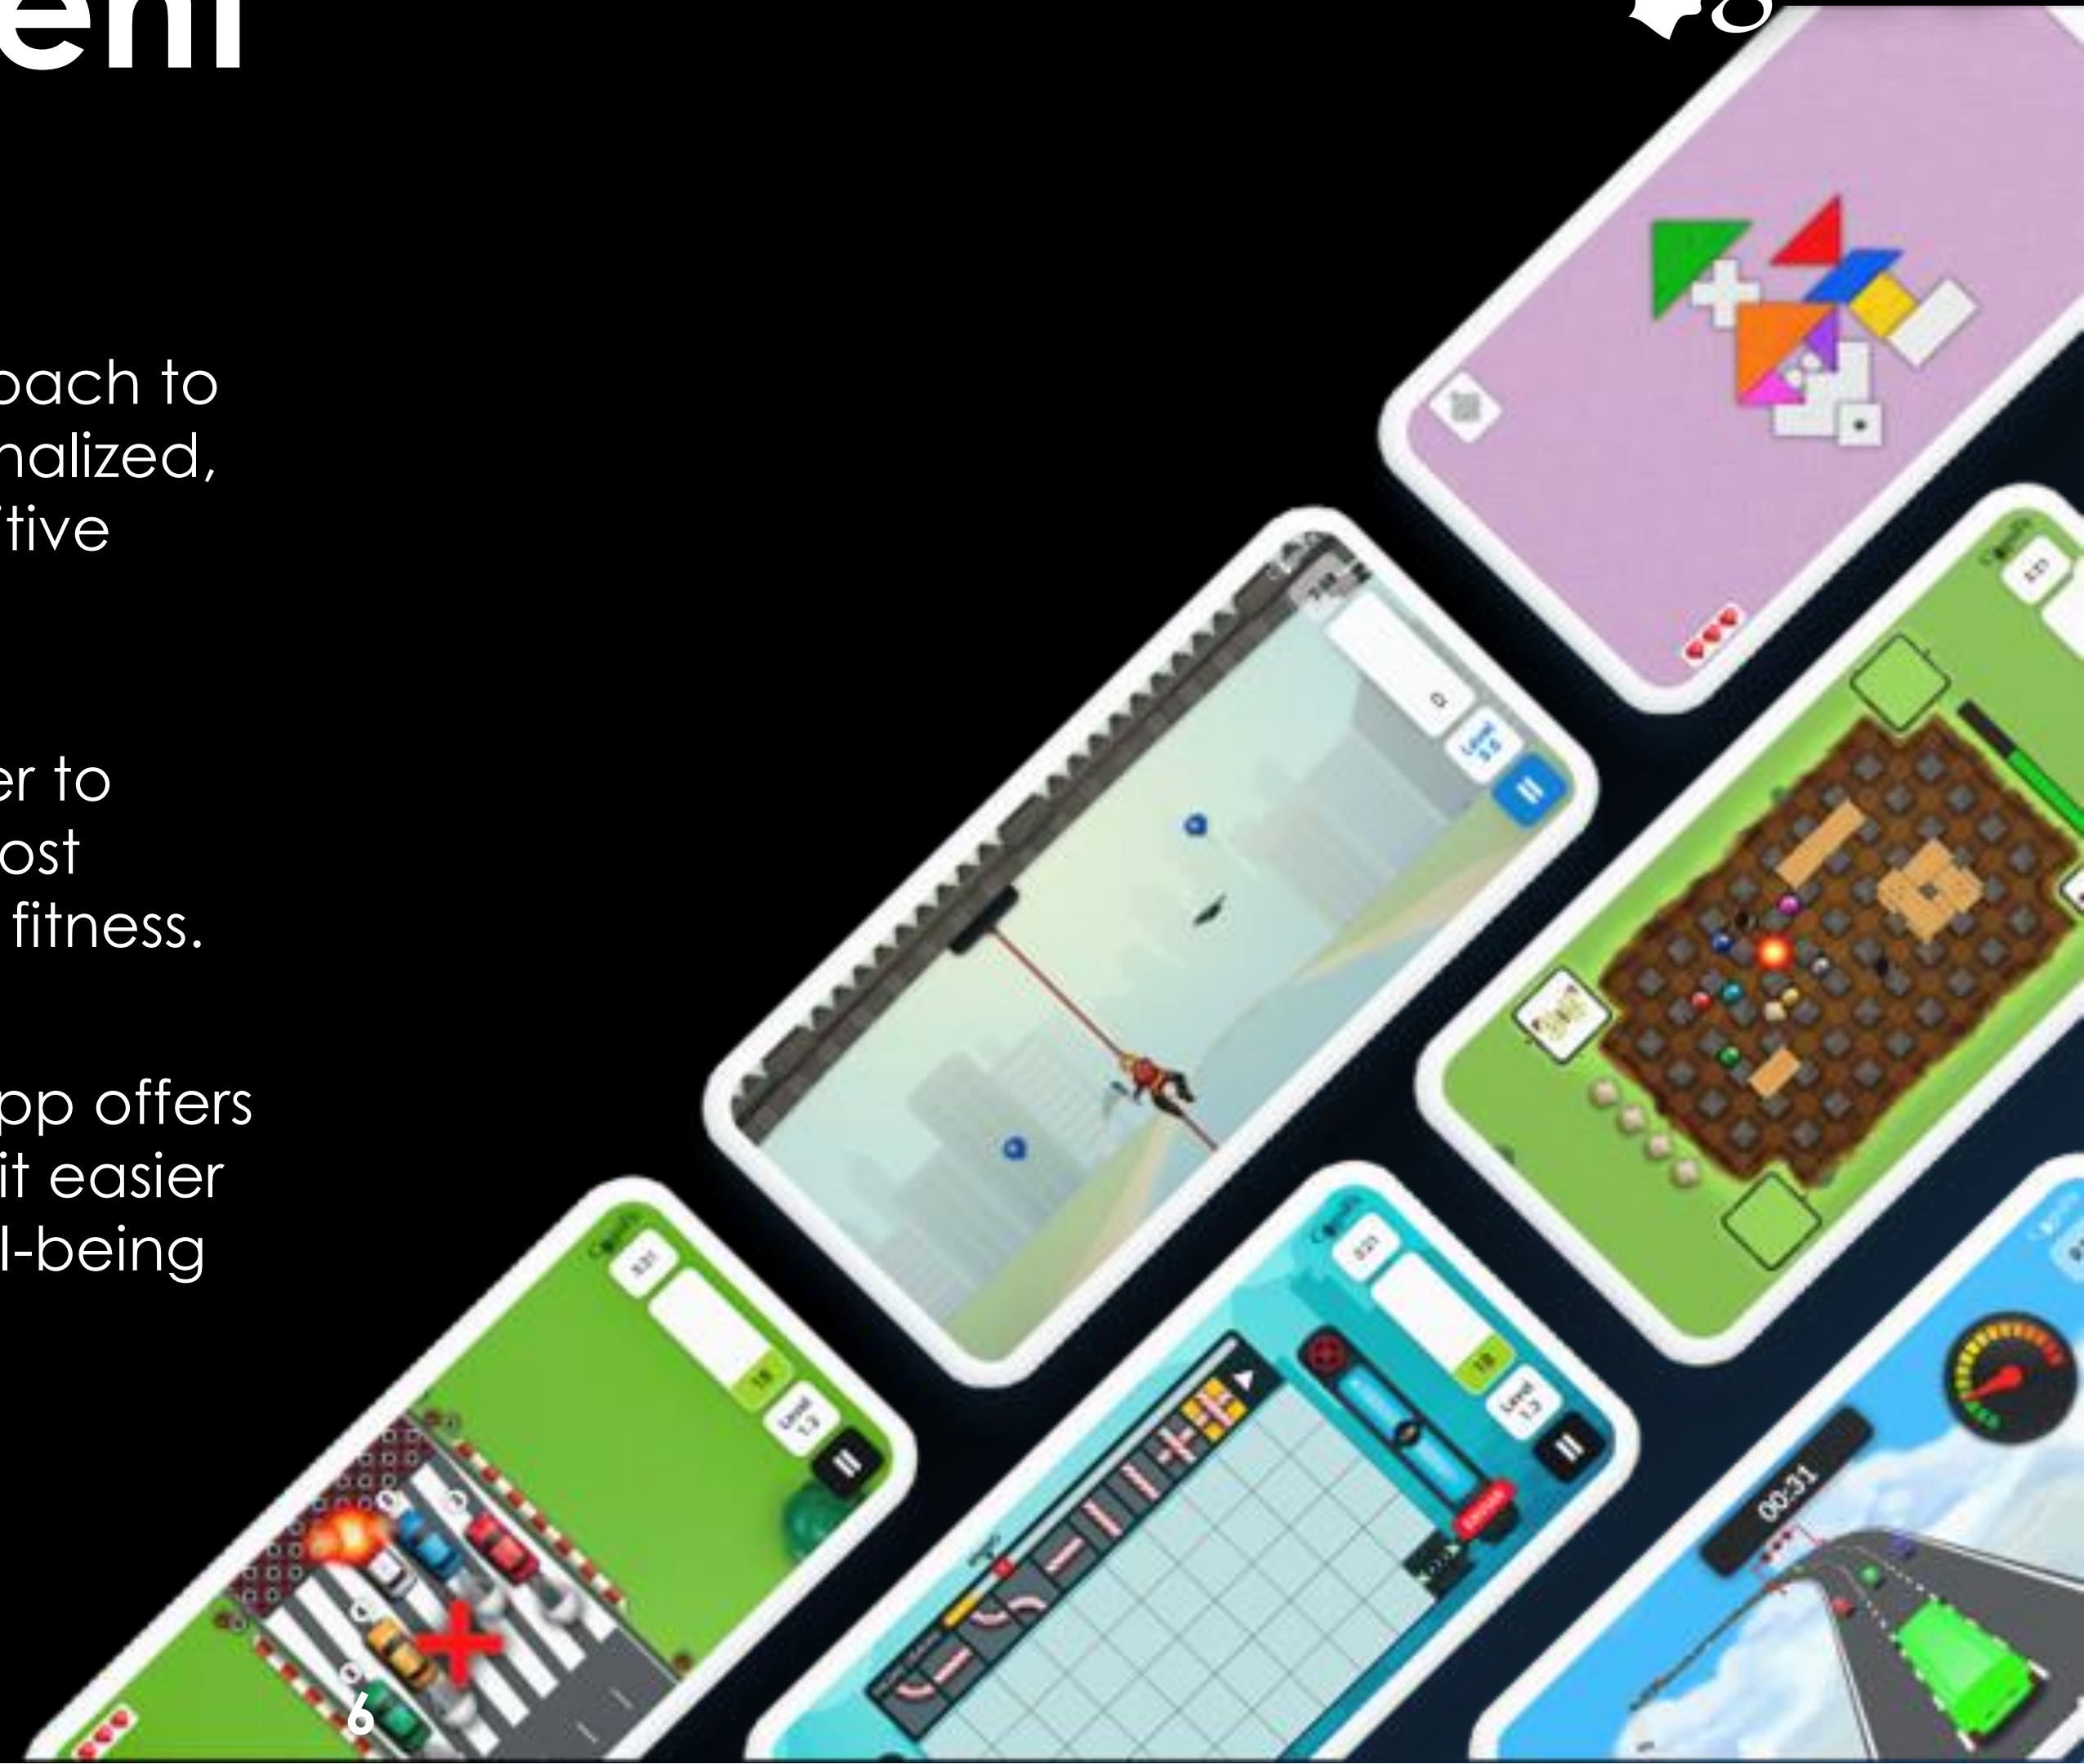

High Engagement

CogniFit

CogniFit provides a comprehensive approach to employee well-being with over 100 personalized, adaptive games and more than 10 cognitive assessments.

These tools are specially designed to cater to each user's unique needs, ensuring the most effective stimulation for improved mental fitness.

Additionally, our online mental wellness app offers additional benefits for employee making it easier for everyone to enhance their overall well-being and performance with our simple-to-use, engaging tools.

Employee Long Term Success

With the CogniFit Cognitive Performance Model every company can easily assess and understand the specific levels of cognitive functioning in your employees, focusing on crucial performance pillars.

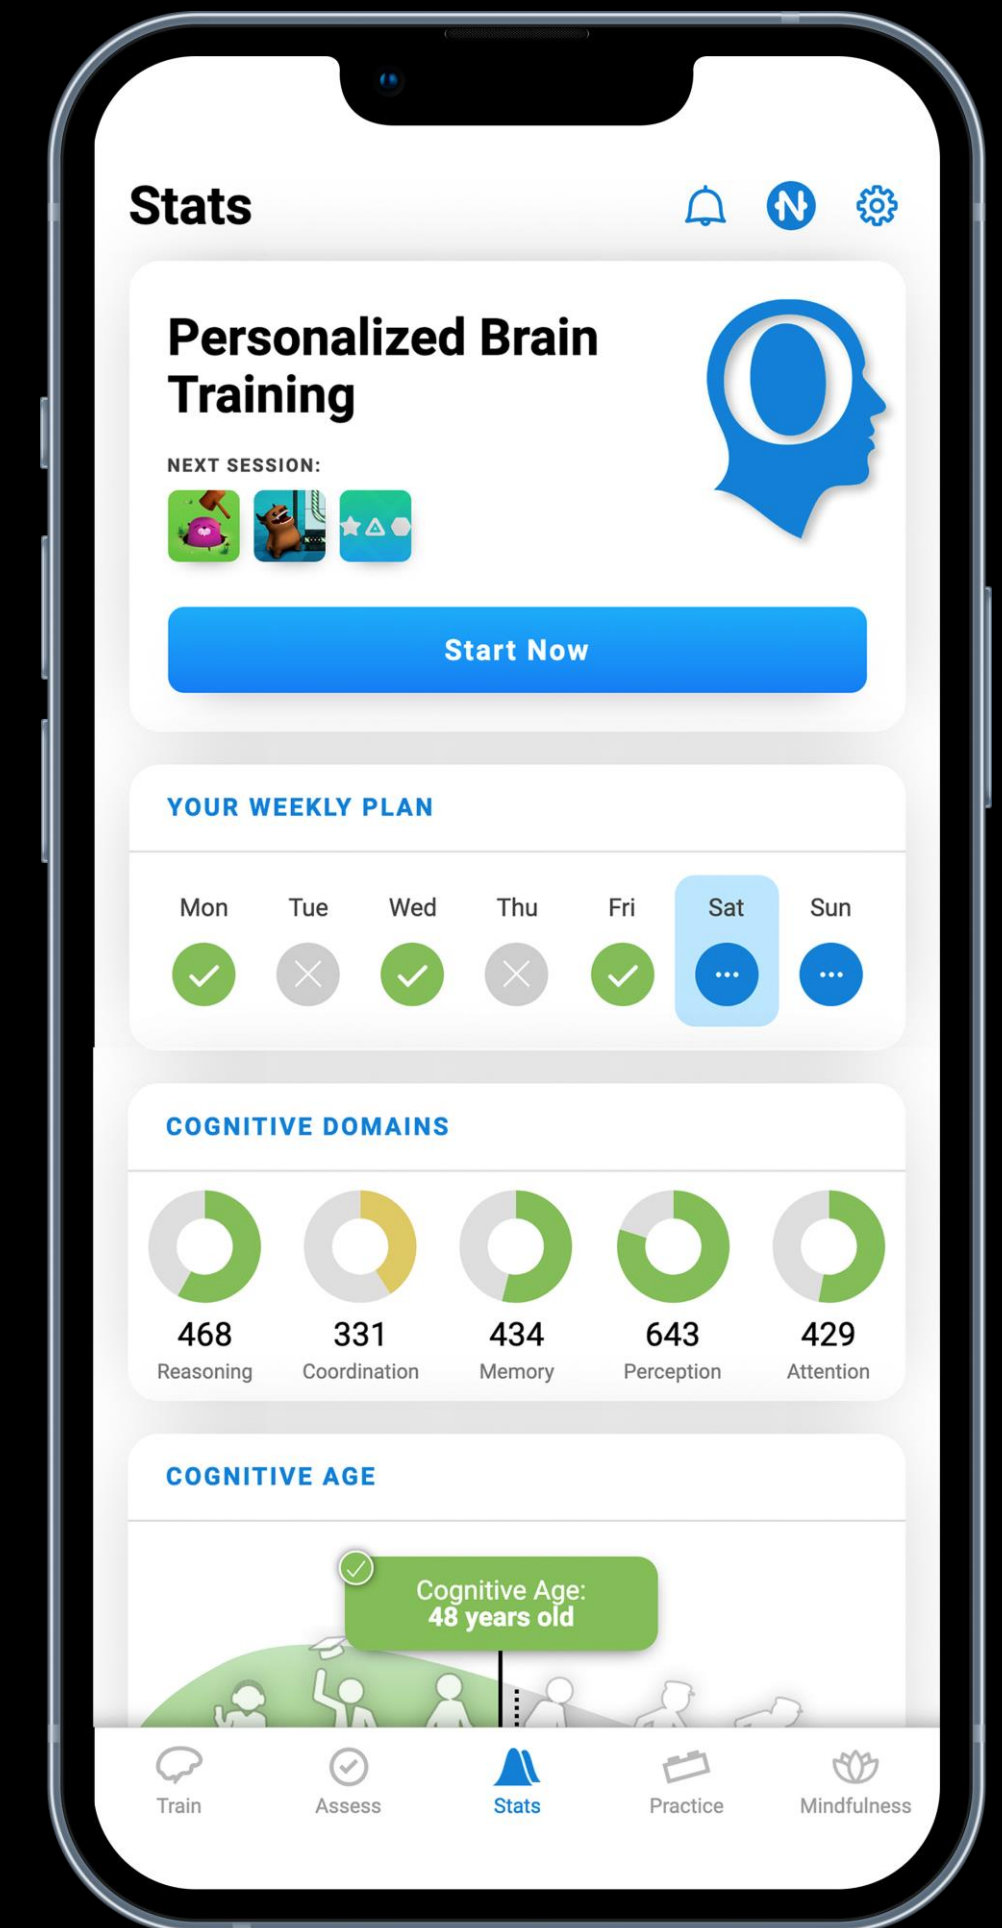

For instance, evaluating their problem-solving skills, memory, attention to detail, or decision-making abilities.

Good cognitive health is a cornerstone for an employee's long-term success, enabling them to tackle challenging tasks, adapt to new situations, and think creatively.

Progress Tracking

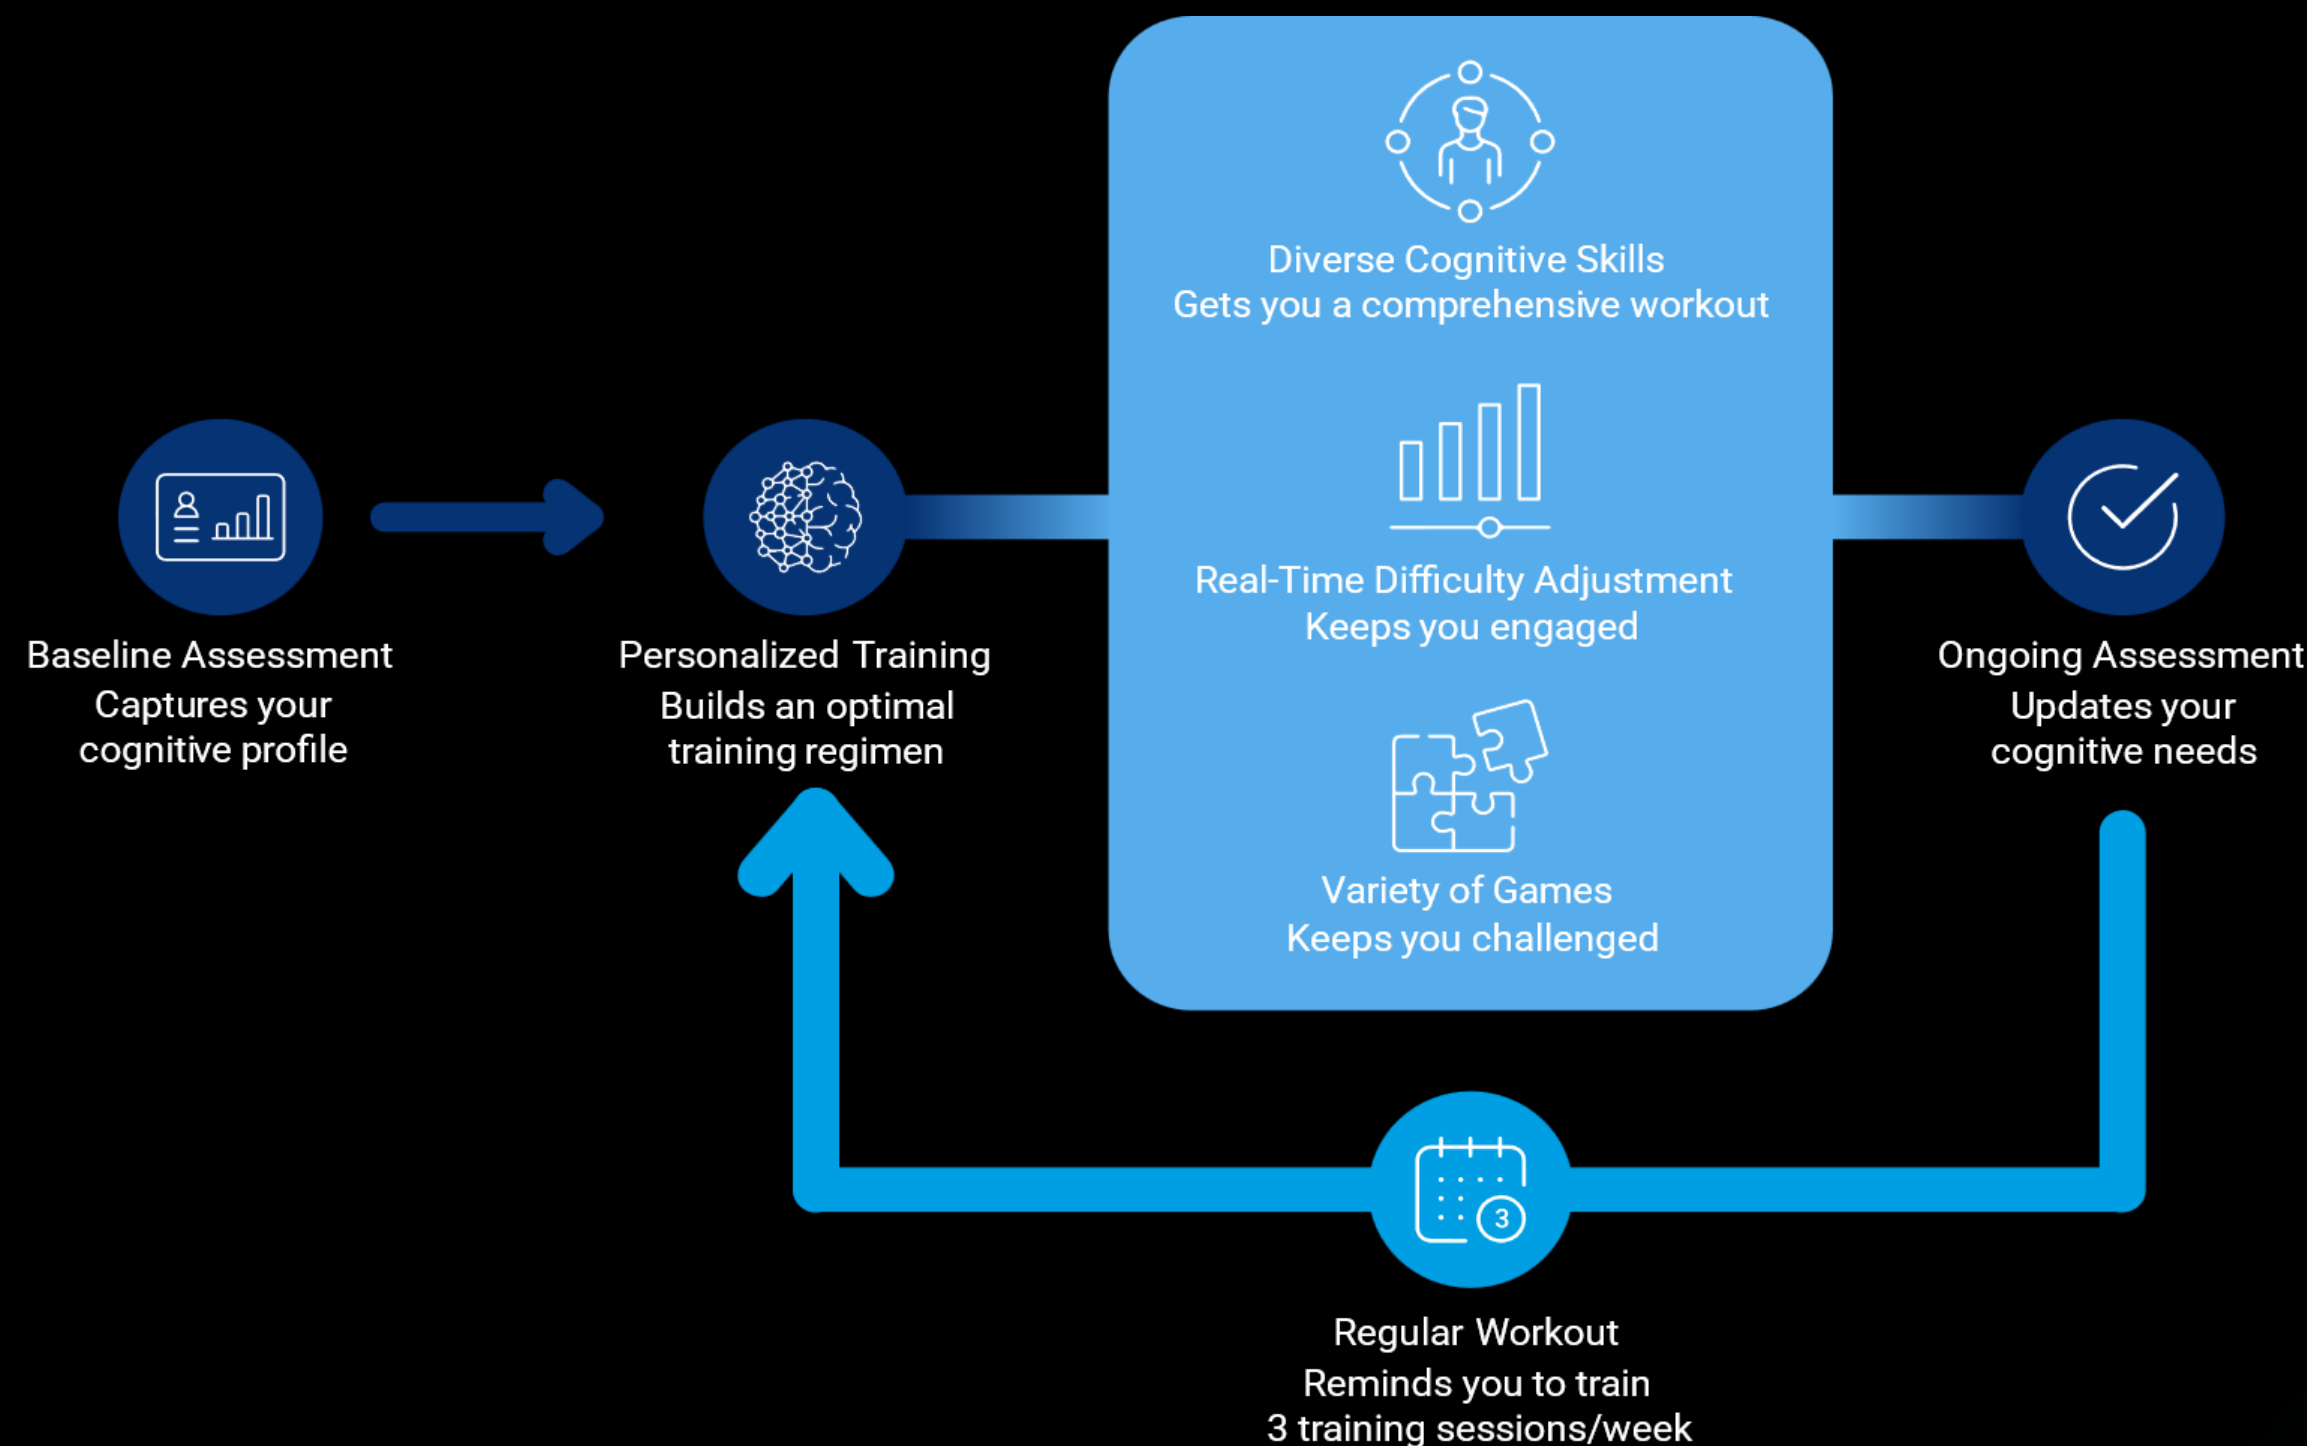

Each employee can monitor their health and track their progress on a detailed neuropsychological profile, cognitive age, results analysis in comparison to their reference group and recommendations.

Scientific Methodology

CogniFit Individualized Training System™ (ITS) uses **AI technology** to automatically analyze each user's cognitive health, adjusting its unique exercises to help improve their weakest skills

- The brain's neuro-plasticity allows to rejuvenate & revitalize cognitive abilities.
- It must be regularly challenged though with a wide variety of cognitive tasks.
- It is enabled by CogniFit's AI algorithms, Machine Learning & proprietary ITS.

Clinical Evidence

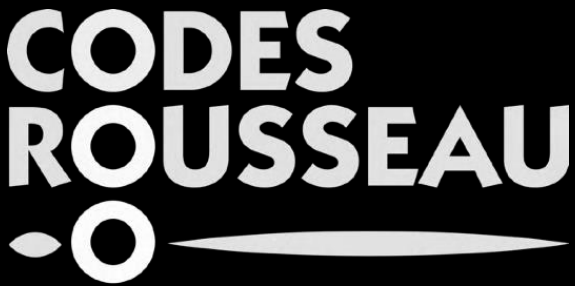

Extensive peer-reviewed published studies and support by the cognition science community

- 22 product validations published as peer-reviewed studies, +60 ongoing.
- Recognized and used as tool of choice by the scientific community.
- 250+ universities and institutions involved in discovering & validation.

Set up Your Company In Seconds

Provide your employees with access to all premium CogniFit cognitive health solutions in just four easy clicks and pay only for the one that use it.

A screenshot of the CogniFit Employee Wellbeing setup interface. The interface is divided into two main sections. The left section, titled "Cognitive Wellness", features a light blue background with images of various cognitive training games on mobile devices. It includes two sub-sections: "Assessment Batteries" with the description "Determine the specific level of cognitive functioning & wellbeing" and "Training Programs" with the description "Designed to measure, exercise, and monitor employee skills". Below this is a blue box titled "How it works" with the text "Build corporate wellbeing through a tool to help improve your employees cognitive health on and off work. Digital tools to assess and train your employees cognitive skills and brain plasticity." The right section, titled "1 What are the needs of your company?", contains two input fields: "HOW MANY EMPLOYEES DO YOU WANT TO BENEFIT WITH COGNIFIT?" with the value "150" and "FOR HOW MANY MONTHS DO YOU WANT THEM TO ENJOY COGNIFIT?" with the value "6". A blue "CONTINUE" button is below these fields. A note states "You can add more employees at any time." At the bottom of the right section, there is a vertical list of steps: "1 What are the needs of your company?", "2 Employee access method", "3 Payment", and "4 Billing". The first step is highlighted in blue. A "Contact us" button is located at the bottom right of the interface.
